Attorney Docket No. 208879

I further direct that correspondence concerning this application be directed to Leydig, Voit & Mayer, Ltd.: Customer Number 23460.

23460

I believe that the original patent (6,568,620) is partially inoperative by reason of the patentee claiming less than the patentee had a right to claim in the patent. At least one error in the original patent is described below.

The original claims all were directed to "A yarn feeder for positively feeding of yarns comprising"; and did not cover "A method of making a yarn feed wheel" by the inventive steps as called for in claims 32 and the claims dependent thereon. The original claims also all were directed to a yarn feed feeder having a yarn feed wheel with a storage region formed by "contact regions for the yarn that are spaced apart from one another"; and did not cover a yarn feed wheel without a storage region with such spaced apart "contact regions" nor the other features of the inventive yarn feed wheel as set forth in claim 21 and the claims dependent thereupon.

All errors which are being corrected in the present reissue application to the time of filing of this declaration arose without any deceptive intention on the part of the applicant.

I declare that all statements made herein of my own knowledge are true, that all statements made on information and belief are believed to be true, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
